Greg Hartmann

Guelph, Ontario, N1G 3B6

Dear Greg,

On behalf of everyone at the Guelph Humane Society (GHS), thank you from the bottom of our hearts for your generous donation toward Small Fry. Your support is truly making a life-changing difference for him.

You've heard his story. How at just four-weeks-old he arrived at GHS, having been found lying alone in gravel along a country road in Wellington County. He was weak from dehydration, and as he was unable to move he was covered in parasites and struggling to survive.

Luckily a kind stranger found Small Fry, and he was rushed to GHS for care. He received immediate specialized medication and care to manually remove the parasites, all while having gentle handling and nursing in a safe, quiet place.

Thanks to you, Small Fry made it through that first weekend and now has a chance to heal, grow, and thrive. With each passing day, he grows stronger, and his vibrant personality is beginning to shine. Watching his transformation has been deeply heartwarming, and we can't wait to see the happy adventures that await him. He still needs monitoring and may need surgery to remove his infected eye, but he's been given the best chance possible for his future.

Small Fry is a shining example of the profound impact you have on animals in need. You are the reason the next helpless little one will be wrapped in warmth and care. Once again, thank you for being an essential part of his story.

With gratitude,

Jennifer Fraser  
Donor Relations Manager

Thank you  
very much for  
helping Small Fry.  
He is getting stronger  
and brighter every day!  
Jen
